- FUA up 5% compared to 1H23, driven by continued growth in public market securitisation and managed funds services
- Debt Market Services (DMS) division revenue was impacted by lower average FUA. The non-bank sector saw resilience in 1H24 despite higher funding costs and a competitive environment
- Managed Funds Services (MFS) division revenue grew by 5% compared to 1H23. The increase was primarily due to continued market activity in commercial property, both in Australia and Singapore
- Continued growth in Corporate Trust with momentum in Perpetual Digital for FY24 through client wins and further product extensions (e.g. global fixed income); MFS and DMS demonstrating resilience through the economic cycle
